MEMORANDUM

TO: Ken Stroud, Chief
Air Quality Surveillance Branch

FROM: Debora Popejoy, Manager
Air Monitoring - North

DATE: **Example**

SUBJECT: MONTHLY DATA SUBMITTAL – JANUARY 2003

The continuous data from the Air Monitoring – North Section has been reviewed and approved. The data are now ready for submittal to U.S. EPA Air Quality System (AQS).

Data are missing for NO_y at Lake Forest from January 5 through 22 due to a pump failure.

Data have been deleted for BAM TSP at Sandy Way from January 15 through 31 due to heavy snow/rainfall, which saturated the tape. The rain cover has been re-engineered to reduce the opportunity for water to be sucked into the unit.

All other deleted or missing data covered short periods of time and do not affect the completeness of the data coverage.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
